Below is a copy of the press release from Moelis Capital Partners discussing the investment:

**MOELIS CAPITAL PARTNERS ACQUIRES OMNISYS**

**New York, NY – November 21, 2013** – OmniSYS, LLC, the leader in medical claims reimbursement and compliance services for pharmacies and medical equipment providers, announced today that New York-based private equity firm Moelis Capital Partners (MCP) has acquired the company from CIC Partners, a private equity firm based in Dallas. Terms of the private sale were not disclosed.

“Today, OmniSYS is the nationally recognized market leader in government and private insurance reimbursement and compliance services for medical claims from retail and mail order pharmacies,” said Tricia Fringer, President and CEO of Dallas-based OmniSYS. “But even with our industry leading position, the changing health care landscape is rapidly expanding our market and opening up other strategic opportunities for OmniSYS, and Moelis Capital Partners sees that significant growth potential.”

Fringer explained that MCP provides OmniSYS substantial capital to grow strategically and organically, deep health care expertise, an expansive network of strategic relationships in the health care sector, and a shared vision for the potential of the company in a rapidly growing market. Fringer added that Moelis resources will help with strategic planning, business development and expanding capabilities for OmniSYS customers.

“We believe the OmniSYS team has done an outstanding job building and growing the company,” said Barbara Hill, the incoming chairperson of OmniSYS’ Board of Directors, and an Operating Partner at MCP focused on the health care sector. “The health care marketplace is moving strategically to grow in business areas where OmniSYS is already the market leader, and we believe with the planned level of investment and focus, the company will continue to be a valued partner to its customers as they expand, and will grow exponentially.”
